

# **Immerse Virtual Studio | Alan Meyerson**

## **Release Notes 1.3.1**

- + Combined installer for Mac no longer requires reinstallation to switch between x86 and Apple Silicon-optimized DAWs
- + Resolves an issue where headphone selection was not remembered
- + Improve Immerse Audio Bridge reliability on Mac & Win
- + Standalone allows quick preset saving and recalling with shortcuts and new menu items
- + Fixed bug with headphone equalization slider and bypass values
- + Change default headphone to Generic Open-Back
- + Fixed compatibility with OSX 10.9-10.10
- + Other UI and experience improvements
